Rehman Ismail

Full Stack Web Developer

Lahore, Pakistan • Portfolio Website • LinkedIn • GitHub • rehman.developer@email.com

Professional Summary

Passionate and detail-oriented Full Stack Web Developer specializing in building modern, performant, and responsive web applications. Experienced in developing frontend interfaces using Next.js and Tailwind CSS, coupled with robust backend services in Node.js and Python. Strong foundation in computer science core principles, algorithmic optimization, and UI/UX design.

Technical Skills

Frontend: Next.js, React, TypeScript, JavaScript (ES6+), Tailwind CSS, Framer Motion, HTML5, CSS3

Backend: Python, Node.js, RESTful APIs, 3-Tier Architecture

Tools: Git, GitHub, VS Code, Command Line / PowerShell

Concepts: Responsive Design, Data Structures & Algorithms, Information Security fundamentals, API Integration

Featured Projects

Rehman Developer – Modern Portfolio Website

Developed a responsive, interactive personal portfolio website showcasing modern web development capabilities.

- Built dynamic user interfaces with Next.js and styled modular components using Tailwind CSS.
- Created fluid entrance and continuous outline-glow animations using Framer Motion to enhance user experience.
- Ensured seamless responsiveness and layout stability across mobile devices, tablets, and desktop displays.

Full Stack Web Applications & API Integrations

Architected and developed dynamic full-stack solutions with Python and Node.js backends.

- Implemented clean 3-tier architectures separating presentation, business logic, and data layers.
- Integrated external RESTful APIs (including weather and generative AI services) into scalable frontend apps.
- Configured local runtime environments and managed secure API communications.

Education

Bachelor of Science in Computer Science (BSCS)

Relevant Coursework:

- Data Structures & Algorithms (Binary Search, AVL Trees, Heaps, Huffman Encoding)
- Information Security
- Computer Architecture & Network Routing
